

The South Dakota Economy

October 28, 2011

Employment growth in South Dakota.

- On an annual basis during 2010, South Dakota nonfarm employment levels were 900 jobs less than 2009, or a decline of 0.2%. This compares to the US decline of 0.7% over the same time period. This was the ninth year in a row that South Dakota's nonfarm employment growth was better than the United States on an annual basis.
- In September 2011, total SD nonfarm employment was up 3,100 jobs or 0.8%, compared to September 2010.
 - Sectors that are currently experiencing year-over-year growth (September 2011 compared to September 2010 levels) include: manufacturing (+2.1%); education and health services (+1.9%); professional and business services (+1.4%); trade, transportation, and utilities (+1.2%); and, government (+1.5%).
 - Sectors that are experiencing year-over-year declines in September include other services (-0.6%); mining, logging, and construction (-0.9%); and, financial activities (-4.6%).

The unemployment rate continues to be one of the lowest in the nation.

- The unemployment rate in South Dakota was the third lowest in the nation in September at 4.6%.
 - South Dakota's unemployment rate in September 2011 was 0.1% lower than last month and the same as a year ago.
- The U.S. unemployment rate was 9.1% in September 2011.

Income growth in South Dakota.

- South Dakota's second quarter 2011 personal income increased by 2.2% compared to the first quarter of 2011, which was the second highest growth rate of all states over the same time period.
- South Dakota's revised annual personal income for 2010 increased 4.7% over 2009, which was the 5th highest growth rate of all 50 states.
- Over the past four years (2006-2010), the average annual growth of South Dakota's personal income was 5.0%, which ranked second of all states.
- South Dakota's per capita personal income in 2010 was \$39,593, which ranked 22nd in the nation. This is an improvement from South Dakota's 36th ranking from 2000.
 - South Dakota's per capita personal income has grown from 87.1% of the national average in 2000 to 99.1% in 2010, an increase of 12%, which was among the highest gain of all states.

The housing market.

- In the last twelve months (October 2010- September 2011) there were 276 fewer single family housing units authorized by building permits in South Dakota than there were the same period before.*
- The value of single family housing building permits is \$12.83 million lower in the last twelve months compared to the same period the year before. *

The agricultural economy.

- South Dakota farm real estate, including land and buildings, averaged \$1,100 per acre as of January 1, 2011. This was an increase of 13.4% compared to the prior year, according to the SD office of USDA's National Agriculture Statistics Service. South Dakota cropland averaged \$1,810 per acre, a 16.0% increase from a year ago. Pastureland was valued at \$470 per acre, up 6.8% from 2010.
- The October 1, 2011 corn production forecast for South Dakota is estimated at 667.2 million bushels, which is a 17% increase from last year's production. Yield is forecast at 139 bushels per acre, up 4 bushels from last year. Acres to be harvested are estimated at 4.8 million, up 14% from 2010.
- Soybean production is forecast at 158.0 million bushels, slightly up from last year and up 3% from last month's compared to last month's forecast. Yield is estimated at 39 bushels, up 1 bushel from last year. Acres for harvest are estimated at 4.05 million, down 2% from last year.
- As of October 1st, South Dakota's 1,000+ capacity feedlots reported 205,000 cattle on feed for the slaughter market. This was unchanged from a year ago and up 15,000 head from a month earlier.
- September crop prices received by SD farmers continue to be higher for crops compared to a year ago. Wheat prices were up \$1.63 per bushel, corn prices were up \$2.88 per bushel, and soybean prices were up \$3.06 per bushel compared to a year ago.

* Building permit statistics are from monthly reporting places only.
