

South Dakota Five-Year Capital Expenditure Plan

Bureau of Finance and Management

January, 2016

South Dakota Five-Year Capital Expenditure Plan - Introduction

On July 2nd, 2014, Governor Dennis Daugaard signed Executive Order 2014-06 to further strengthen the financial practices of the State of South Dakota. The executive order sets forth three documents that the Bureau of Finance and Management shall provide to the Governor by no later than January 10 of each year.

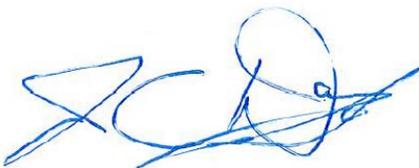

Section 2 of the executive order requires, *“A capital expenditure plan outlining projected expenses for construction projects as well as maintenance and repair projects for the next five years. The plan will address cost projections as well as fund sources used to finance the construction and maintenance and repair projects.”*

During the 2015 Legislative session, Senate Bill 172 was introduced by the Governor to institutionalize the long-term financial plan. This legislation passed with unanimous support and was placed into state law on July 1, 2015.

We are pleased to present the South Dakota Five-Year Capital Expenditure Plan. The following pages include a current listing of capital projects being considered over the course of the fiscal years ranging from FY2016 to FY2020. The list breaks down projects into three main categories – New Construction, Expansion, and Maintenance and Repair. This capital plan presents the agency, the location, the project, and an estimated fiscal year for a start date. In addition, the financial plan presents a projection for funding sources and costs of each project. The projects and costs on this list are as of December 21, 2015 and are subject to change and alterations as needs are further evaluated and more in-depth studies and engineering assessments occur.

Our hope is the information presented in the South Dakota Five-Year Capital Plan sets forth a clear plan of the state’s capital needs and a better understanding of South Dakota’s budget while further strengthening our state’s financial practices.

Sincerely,

Jason Dilges, Chief Financial Officer

South Dakota Five-Year Capital Expenditure Plan – Project Information

The following pages provide a brief description of some of the projects listed on the South Dakota Five-Year Capital Expenditure Plan. The potential projects included are classified either as “New Construction” or as “Expansion” projects. The details listed for the briefing of each potential project will hopefully add awareness and understanding as to the need and scope of each project. Projects classified as “Maintenance and Repair” are not discussed in further detail as they are part of the State’s normal maintenance and repair operations.

The South Dakota Five-Year Capital Expenditure Plan comprises of \$2,279,752,450 in total funds. This includes \$147,157,311 in general funds, \$1,402,345,503 in federal funds, and \$730,249,636 in other funds. Following the project information is a table listing the types of projects, total costs, and funding sources of the South Dakota Five-Year Capital Expenditure Plan.

New Construction Projects

Mike Durfee State Prison

- A medical building complex at Mike Durfee State Prison would include all health related services offered at Mike Durfee State Prison. This building would allow health care providers to share medical equipment, communicate with one another, and help with inmate accountability. Plans would include a primary medical care unit, dental clinic, x-ray room, medication distribution area, ambulance entrance, six additional infirmary beds, and a dedicated emergency generator.

Mike Durfee State Prison

- An inmate Chapel at Mike Durfee would better accommodate religious activities and individuals with disabilities. Plans would include a steel building consisting of a Chapel area and six offices.

South Dakota State Penitentiary

- A 10,000 square foot steel building would be constructed for maintenance and garage equipment and state vehicles at the South Dakota State Penitentiary; two security observation towers by Jameson Annex would provide additional security observation for the West and North sides of the building perimeter; and an additional structure at the Sioux Falls Community Work Center would consolidate offenders and program staff into one location.

Good Earth State Park Visitor Center

- The Good Earth State Park Development and Visitor Center plan would include building construction, site and landscaping development, and roads and parking lot construction. The visitor center would be 12,160 square feet with total project

costs of approximately \$7M and would showcase the cultural and historical importance of the site, as well as a unique nature retreat.

Good Earth State Park Shop/Storage Building

- The State Parks and Recreation Division has scheduled the construction of a new shop and storage building to be located at the newly established Good Earth State Park at an estimated cost of \$143,000. The one-building structure would include both warm and cold storage and serve as the main maintenance and storage facility for the park.

Shadehill Welcome Center and Parking

- The State Parks and Recreation Division has scheduled the construction of a new Welcome Center and parking area located at the entrance to Shadehill Recreation Area at an estimated cost of \$387,000. The Welcome Center would serve as the main entrance booth for visitors and host local parks office staff. The local parks staff currently operates out of the onsite shop building and would relocate into the Welcome Center.

Department of Transportation Maintenance Shops

- The Department of Transportation (DOT) has plans in the next five years to update, construct, or replace maintenance shops throughout the state. Maintenance shops being considered would increase capacity, replace outdated facilities, and provide new facilities, all while complying with Americans with Disabilities Act (ADA) standards. The new facilities being considered would allow for DOT employees to house vehicles, equipment, and other necessary items and would also help lengthen the lifespan of these items, which may decrease future expenditures.

Department of Transportation Facilities

- Additional space is needed statewide within the Department of Transportation. Over the next five years, plans for new or expanded buildings would provide adequate space for office space, lab space, salt storage, cold storage, seasonal equipment, and heated truck storage.

Nordby Exhibit Hall

- The South Dakota State Fair Foundation is currently undertaking a three-year capital campaign with a goal of raising \$4.7M for the new construction of the Nordby Exhibit Hall. When finished, the 49,960 square foot building would be used for exhibits, competitions, entertainment, and administration.

Department of Game, Fish and Parks Storage Facility

- Additional storage space is needed within the Division of Wildlife located at the wildlife office in Aberdeen, and would serve much of northeast South Dakota. The new facility being considered would allow for conservation officers to house vehicles, equipment, and other necessary items and would also help lengthen the lifespan of these items, which decreases future potential expenditures.

South Dakota Bureau Building

- In order to continue to serve state government departments, additional space designed to house the four bureaus – Bureau of Finance and Management

(BFM); Bureau of Administration (BOA); Bureau of Information and Telecommunications (BIT); and Bureau of Human Resources (BHR) – may be necessary. As the bureaus continue to provide additional services to state government, the space needed for new bureau employees must grow as well. The proposed space would allow all four bureaus to house all of their respective Pierre-based employees in the same building (currently housed in several buildings across Pierre). Additionally, the proposed building would allow for BIT to host much of their technology infrastructure in a safe and secure environment. Regarding a project construction timeline, the project is in its infancy, and cost estimates (\$39.0M) are based on estimated square footage needs. A proposed timeline for engineering and construction is not yet in place for this project.

E.Y. Berry Library Renovation – Black Hills State University

- The E.Y. Berry Library and Learning Center is a major resource center for students and faculty for on-campus and distance learning. The building was constructed in 1972 with little or no upgrades since that time. The facility is filled and used to capacity due to enrollments tripling since the initial construction. The renovation project would include the finishing of shell space, a new entrance, major technology improvements, design upgrades as well as an infrastructure upgrade. Updating these components would bring the project into compliance with the BHSU campus master plan.

Research Center – South Dakota School of Mines & Technology

- A strategic focus for the School of Mines & Technology is the growth of both graduate programs and the research enterprise. At its heart, research productivity depends on two major interconnected variables: personnel and facilities. The current research faculty is operating near their maximum capability. The existing research facilities are already insufficient to support the needs of the research faculty. SDSM&T is currently renting two research buildings outside of the central campus. Those buildings, totaling 32,600 square feet, are fully occupied and insufficient for present needs. The growth in research faculty necessary to meet the goals expressed in the School's strategic priorities and goals require a major expansion in research laboratory space.

Visual Arts Facility – South Dakota State University

- The Seedhouse would be renovated to provide modern undergraduate instruction space for the Visual Arts Department. An addition would be required to meet total program requirements for visual arts instruction, graphic design, exhibit space, and three dimensional arts instruction. Faculty studio/office spaces would be provided. This building would replace space currently used in Grove Hall and interim space provided in the new Headhouse facility.

Performing Arts Center – South Dakota State University

- Performance spaces for theater and music are required to replace Doner Auditorium and Peterson Recital Hall. These would include an 850 seat proscenium theatre and a 125 seat music recital hall. Academic instruction space for the Music Department, Communication Studies & Theatre would be provided so all performing arts programs could be co-located in one facility. An addition of approximately 100,000 square feet is planned to accomplish these goals.

Dakota Hall – University of South Dakota

- This project is a renovation of an academic building on campus. The building has not had any major renovations since 1969. The renovation would be an infrastructure and Americans with Disabilities Act (ADA) upgrade and would address critical classroom deficiencies within the building.

Information Technology Building – Dakota State University

- Additional space is needed at Dakota State University (DSU) in Madison for the growth in graduate programs, research, and the need for high tech facilities to support the campus mission. Growth in graduate programs has created a need for additional space to support Graduate Assistants and student/faculty research. The current location of the help desk and repair center for the Wireless Mobile Computing Initiative (WMCI) is insufficient in meeting the needs and expectations of students. Additional classrooms to accommodate IT courses on campus are needed. Additional space is needed for the growing Health IT programs as DSU is currently renting space off campus to meet this demand. The IT Building would be located on the current site of Lowry Hall, which would require razing that building. Lowry currently houses DSU Computing Services and several other offices. These offices would be realigned between space in East Hall and the new IT Building. Lowry was formerly a residence hall and in need of significant improvements.

Expansion Projects

Mike Durfee State Prison

- This project would include the replacement of Ludeman Hall, an inmate housing unit built in 1962 at Mike Durfee State Prison. It would also include the expansion of facility utilities, security fence integration, safety and security equipment, road and sidewalk construction, bunks and lockers, and office furniture.

Mike Durfee State Prison

- A new kitchen is needed at Mike Durfee State Prison. This project would expand the present dining hall to include adjoined kitchen space. Currently, all inmate food is prepared in the Montgomery Center, placed in warmers, pushed to a loading dock, transported through two security gates to the dining hall, unloaded at the dock, and then pushed into the dining hall serving area. This process becomes very difficult during inclement weather. Plans include using the Montgomery Center for inner perimeter classroom space once the kitchen is relocated.

South Dakota State Penitentiary

- The inmate population has grown at the South Dakota State Penitentiary and the housing facility has expanded to include an additional 92 beds. This project would allow for the expansion of health services and laundry needed to accommodate the additional inmates into the empty courtyard at Jameson Annex. Additionally, the Sioux Falls Community Work Center would convert the loading dock area into expansion for the laundry area.

South Dakota Women's Prison

- The South Dakota Women's has plans to duplicate a section to the northeast of "A block" to be used for mental health, medical and disciplinary inmates. As the population at the Women's Prison ages, the need for mental health and medical services increases. The plan would create 26 additional cells and 4,000 square feet. In addition, the Women's Prison would either expand or add another block to accommodate inmate needs.

Sequel Academy

- Sequel Academy has plans to remodel an existing barn to be used as a gymnasium during the winter months.

Department of Military Vehicle Storage Building

- An unheated storage building is needed in Sioux Falls to extend the life of vehicles and equipment and provide greater reliability for emergency response during severe weather events. The location would allow for pre-staging equipment and vehicles to better respond to events throughout the state.

Game, Fish and Parks Statewide Recreational Enhancements

- The Department of Game, Fish and Parks continually works toward the enhancement of statewide recreational areas and state owned properties for the use and enjoyment by residents and visitors with a focus on public access to outdoor recreational opportunities. The projects planned over the next several years include trail projects, day use facility upgrades, utility upgrades, shooting range enhancements, fishing access, Americans with Disabilities Act (ADA) compliance upgrades, road projects, and other structural expansions.

Department of Transportation Facilities

- Additional space is needed statewide within the Department of Transportation. Over the next five years, plans for new or expanded buildings would provide adequate space for office space, lab space, salt storage, cold storage, seasonal equipment, and heated truck storage.

Department of Transportation ADA Compliance Upgrades

- The Department of Transportation, in an effort to comply with ADA standards, has plans from FY2016 through FY2020 to make several upgrades at locations throughout the state.

Department of Transportation Maintenance Shops

- The Department of Transportation (DOT) has plans in the next five years to update, construct, or replace maintenance shops throughout the state. Maintenance shops being considered would increase capacity, replace outdated facilities, and provide new facilities, all while complying with ADA standards. The new facilities being considered would allow for DOT employees to house vehicles, equipment, and other necessary items and would also help lengthen the lifespan of these items, which may decrease future expenditures.

Building Expansion – Western Dakota Technical Institute

- Building expansions at Western Dakota Technical Institute (WDT) include the addition of a public safety building, medical simulation center, multi-purpose

center, diesel tech building, and a kitchen remodel. The building expansion project would allow WDT to house more programs on campus and would also provide expansion for simulation training in the high demand medical fields.

Purchase Properties – Lake Area Technical Institute

- Lake Area Technical Institute (LATI) has determined it may be necessary to purchase land contiguous with the existing campus. Additional land would allow LATI to expand lab space for high demand programs and accommodate anticipated growth.

Department of Military Building Additions

- Additions on buildings in Sturgis, Webster, and Brookings are needed in order to provide office space, locker room, break room, latrine, and showers. These improvements are required to support the Field Maintenance Shop personnel and address space shortfalls at these locations.

South Dakota Developmental Center Demolition

- The Department of Human Services plans to demolish three building on the campus of the South Dakota Developmental Center (SDDC) in Redfield. The three buildings planned for demolition include Willhite, Sunnyview, and Dakota Hall. Demolishing these buildings is part of an overall plan to reduce the footprint of SDDC and achieve long term cost savings by minimizing maintenance costs.

Statewide Transportation Improvement Program (STIP)

- The Statewide Transportation Improvement Program (STIP) was developed through the coordinated efforts of the South Dakota Department of Transportation, South Dakota Transportation Commission, state and federal agencies, local and tribal governments, metropolitan planning organizations, other public agencies, transportation providers, citizens and other interested parties. The program identifies highway and intermodal improvements to preserve, renovate, and enhance South Dakota's transportation system. The program is used as a planning guide to help provide a high quality, safe transportation system for the citizens of South Dakota. These projects, totaling \$1,371,333,041 in federal funds and \$284,633,022 in other funds, are listed as maintenance and repair projects.

State Railroad Projects

- The South Dakota rail system provides competitive and efficient service, in the safest manner possible, to connect South Dakota businesses and industries with domestic and international markets, and support statewide economic development activities. These projects, totaling \$14,489,890 in federal funds and \$41,347,333 in other funds, are listed as maintenance and repair projects. Detailed information on each project can be found in the following pages.

South Dakota Five-Year Capital Expenditure Plan Summary

The tables below provide a summary of all projects listed on the South Dakota Five-Year Capital Expenditure Plan.

New Construction				
	General Funds	Federal Funds	Other Funds	Total Funds
Continued Safety	4,375,000			4,375,000
Education in South Dakota			121,231,807	121,231,807
Keeping South Dakota Healthy				
Serving and Supporting South Dakota	39,000,000	426,500	22,632,300	62,058,800
Total	\$ 43,375,000	\$ 426,500	\$ 143,864,107	\$ 187,665,607

Expansion				
	General Funds	Federal Funds	Other Funds	Total Funds
Continued Safety	16,175,293	1,901,170		18,076,463
Education in South Dakota	5,679,107		14,058,215	19,737,322
Keeping South Dakota Healthy	1,808,000			1,808,000
Serving and Supporting South Dakota		1,229,600	12,054,787	13,284,387
Total	\$ 23,662,400	\$ 3,130,770	\$ 26,113,002	\$ 52,906,172

Maintenance and Repair				
	General Funds	Federal Funds	Other Funds	Total Funds
Continued Safety	43,274,865	6,657,452		49,932,317
Education in South Dakota	1,385,700		209,122,894	210,508,594
Keeping South Dakota Healthy	20,177,155	682,000		20,859,155
Serving and Supporting South Dakota	15,282,191	1,391,448,781	351,149,633	1,757,880,605
Total	\$ 80,119,911	\$ 1,398,788,233	\$ 560,272,527	\$ 2,039,180,671

All Projects				
	General Funds	Federal Funds	Other Funds	Total Funds
Continued Safety	63,825,158	8,558,622		72,383,780
Education in South Dakota	7,064,807		344,412,916	351,477,723
Keeping South Dakota Healthy	21,985,155	682,000		22,667,155
