

# South Dakota Five-Year Capital Expenditure Plan

Bureau of Finance and Management

January, 2021

# South Dakota Five-Year Capital Expenditure Plan - Introduction

Governor Kristi Noem is committed to strengthening and building on the state's foundation of fiscal responsibility. On July 2, 2014, Executive Order 2014-06 was signed to strengthen the financial practices of the State of South Dakota. The executive order sets forth three documents that the Bureau of Finance and Management shall provide to the Governor by no later than January 10 of each year.

Section 2 of the executive order requires, "A capital expenditure plan outlining projected expenses for construction projects as well as maintenance and repair projects for the next five years. The plan will address cost projections as well as fund sources used to finance the construction and maintenance and repair projects."

During the 2015 Legislative session, Senate Bill 172 institutionalized the long-term financial plan. This legislation passed with unanimous support and was placed into state law on July 1, 2015.

We are pleased to present the South Dakota Five-Year Capital Expenditure Plan. The following pages include a current listing of capital projects being considered over the course of the fiscal years ranging from FY2021 to FY2025. The list breaks down projects into three main categories – New Construction, Expansion, and Maintenance and Repair. This capital plan presents the agency, the location, the project, and an estimated fiscal year for a start date. In addition, the financial plan presents a projection for funding sources and costs of each project. The projects and costs on this list are as of January 2021 and are subject to change as needs are further evaluated and more indepth studies and engineering assessments occur.

Our hope is the information presented in the South Dakota Five-Year Capital Plan sets forth a clear plan of the state's capital needs and a better understanding of South Dakota's budget while further strengthening our state's financial practices.

Sincerely,

Liea Clark

Liza Clark Chief Financial Officer

# South Dakota Five-Year Capital Expenditure Plan – Project Information

The following pages provide a brief description of some of the projects listed on the South Dakota Five-Year Capital Expenditure Plan. The potential projects included are classified either as "New Construction" or as "Expansion" projects. The details listed for the briefing of each potential project will add awareness and understanding into the need and scope of each project. Projects classified as "Maintenance and Repair" are not discussed in further detail as they are part of the state's normal maintenance and repair operations.

The South Dakota Five-Year Capital Expenditure Plan is comprised of \$3,874,729,917 in total funds. This includes \$149,189,479 in general funds, \$73,707,012 in federal funds, and \$3,651,833,426 in other funds. Following the project information, is a table listing the types of projects, total costs, and funding sources of the South Dakota Five-Year Capital Expenditure Plan.

# **New Construction Projects**

# South Dakota Women's Prison Housing Unit - Rapid City Work Center

The inmate population has grown at the South Dakota Women's Prison, and the housing facility has expanded from the original design in 1997. This project would allow for more space to house low to medium security females in Rapid City.

# Elm Lake Dam Spillway Replacement

School and Public Lands has plans to begin construction on the replacement of the Elm Lake Dam spillway in Brown County in FY2021. The dam is a category 1, high-hazard dam due to the risk of loss of life and property damage should the dam breach. The existing spillway has been determined to be unfixable.

# **Ellsworth Airforce Base Recreational Center**

Liberty Center is intended to enhance the local and military community by offering a space for year-round indoor physical fitness, running, group sports, childcare, health care, and eventually aquatics. The facility will be a center for community wellness and connection, as well as an anchor for development of the area that aligns with quality of life needs of both the military and civilian populations in the area.

# **Raven Precision Agriculture Center – South Dakota State University**

The SDSU College of Agriculture and Biological Sciences and the Jerome J. Lohr College of Engineering are partnering to strengthen university programming to meet an imperative societal need to feed more people using fewer resources in a manner that is socially acceptable and economically and environmentally sustainable. Precision agriculture is a suite of expert technologies, methods, and applications utilized across the globe to help produce more food with less water, fertilizer, and treatments.

# Visitor's Center - Mike Durfee State Prison

The construction of a new visitor's center at Mike Durfee State Prison would include security fencing segregation, public bathrooms, and a separation for Parole Board activities. This facility would accommodate Class I and Class II visits and monthly parole hearings.

#### **Program Building – Sioux Falls Community Work Center Program**

This project includes building an additional structure at the Sioux Falls Community Work Center to consolidate offenders and program staff into one location.

# **Custer State Park Bison Visitors Center**

Creation of the bison center will provide the platform for visitors to understand the history of bison in the park, in South Dakota, and in Native American culture. Some of this story is currently being provided at the Custer State Park visitor center, but by providing an additional space this story can be enhanced at the bison center. This will also create space at the Custer State Park visitor center to elaborate more on the creation of the park, provide a space for display of historic artifacts and memorabilia, and some of the other interesting pieces that tell the story of Custer State Park.

# **Maintenance Garage – South Dakota State Penitentiary**

A 10,000 square foot steel building would be constructed for maintenance, garage equipment, and state vehicles at the South Dakota State Penitentiary.

# **Security Observation Towers - South Dakota State Penitentiary**

This project includes the construction of two security observation towers by Jameson Annex to provide additional security observation for the west and north sides of the building perimeter.

# **Regional Sports Complex – Northern State University**

The construction of a regional sports complex will be comprised of a football stadium and softball stadium, associated spectator seating, restrooms, a concession stand, locker rooms, offices for coaches, a club room, a service area, meeting rooms, and storage. The facility will be located on the campus of Northern State University.

# Lincoln Hall Renovation - South Dakota State University

This project involves the renovation of Lincoln Hall, a well-constructed and historically significant building on the campus of South Dakota State University. Spaces would be reconfigured, systems modernized, and deferred maintenance items addressed. These needs would include electrical, plumbing, ventilation, building envelope, and interior finishes. Energy conservation would also be undertaken to reduce energy costs and contribute to a more sustainable campus.

# **Residence Hall and Student Life Facility – Dakota State University**

The four-story Residence Village will feature suite-style and apartment-style units. The building will also include community study areas, lounges, laundry facilities, and administrative offices. The new site location will allow the facility to connect to the Courtyard project through the existing stair tower.

# Athletic Support Facility - South Dakota State University

The construction of an outdoor Athletic Support Facility will consist of team rooms, officials' locker rooms, restrooms, concession stand, storage, and mechanical space at South Dakota State University. This facility will support baseball, softball and soccer, the outdoor track and field throwing practice area, and athletic camps.

# **State Fair Livestock Complex**

On October 31, 2020, a fire destroyed the State Fair Beef Complex. The new, multipurpose facility will be 200,000 square feet. That's more than double the size of the old beef complex. This new space will be capable of housing up to 2,000 head of cattle, and allow for indoor regional and national rodeos, equestrian events, and livestock exhibitions.

# **Palisades State Park Campground Development**

The State Parks and Recreation Division has scheduled phase 1 and phase 2 of the campground development at Palisades State Park. This will introduce visitors to the new park addition to foster excitement, support, and use of the park to assist with further development of recreation opportunities.

# **Department of Military – Storage Buildings**

The construction of three storage buildings will allow South Dakota's military to train and to store equipment out of the extreme cold and hot conditions. Federal fund expenditure authority was appropriated during the 2019 Legislative Session for the construction of a building in Sioux Falls and Rapid City. The Department also plans to construct a storage building in Aberdeen.

# **Recreation Building – South Dakota State Penitentiary**

This project includes the demolition of the existing recreation building and root cellar on the South Dakota State Penitentiary's campus in Sioux Falls. This project would allow for them to construct a new recreation building, as well as a maintenance building. This project would save funding in maintenance and repair, as well as, fix Americans with Disabilities Act (ADA) compliance issues.

# Health Sciences Building - University of South Dakota

The construction of a new Health Sciences building will allow for increased class sizes to meet the critical need of the growing healthcare workforce in rural South Dakota. Investing in the state's only interprofessional School of Health Sciences will achieve these goals and meet accreditation and regulatory standards.

# **National Guard Readiness Center – Sioux Falls**

The construction of a National Guard Readiness Center in Sioux Falls was moved up the MILCON project lists from 2024 to 2022. This project requires a 25% state match. This facility will provide drilling location to all training of soldiers in support of the state and federal missions for a minimum of 50 years.

# Game, Fish and Parks Statewide Recreational Enhancements

The Department of Game, Fish and Parks continually works toward the enhancement of statewide recreational areas and state-owned properties for the use and enjoyment by residents and visitors with a focus on public access to outdoor recreational

opportunities. The new construction projects planned over the next several years include trail projects, day use facility upgrades, utility upgrades, shooting and archery range enhancements, fishing access, Americans with Disabilities Act (ADA) compliance upgrades, playground equipment, camping cabins, storage buildings, and road projects.

# **Department of Transportation Maintenance Shops**

The Department of Transportation (DOT) has plans in the next five years to update, construct, or replace maintenance shops throughout the state. Maintenance shops being considered would increase capacity, replace outdated facilities, and provide new facilities, all while complying with Americans with Disabilities Act (ADA) standards. The new facilities being considered would allow for DOT employees to house vehicles, equipment, and other necessary items and would also help lengthen the lifespan of these items, which may decrease future expenditures.

# **Department of Transportation Facilities**

Additional space is needed statewide within the Department of Transportation. Over the next five years, plans for new buildings would provide adequate space for office space, lab space, salt storage, cold storage, seasonal equipment, and heated truck storage.

# **Expansion Projects**

# Wellness Center Expansion - University of South Dakota

The University of South Dakota plans an aquatic addition to the existing Wellness Center facility. The plan would replace the existing swimming pool in the Dakota Dome. This would include an Olympic size swimming pool, bulkheads, diving boards, scoreboards and timing system, starting boards, sound system, storage/training space for the swimming and diving teams, office spaces, storage spaces for Wellness Center, and associated plumbing, mechanical, and electrical systems.

#### Programming/Maintenance Building - South Dakota Women's Prison

The Department of Corrections will be purchasing adjacent property to the South Dakota Women's Prison in Pierre. The acquisition of this land and building will allow the Women's Prison to expand programming for women inmates. They will also be able to use the building to store maintenance equipment and vehicles to extend their useful life.

#### **Devereaux Library Renovation - South Dakota School of Mines & Technology**

The Devereaux Library was constructed in 1970. Major updates are necessary on the first and second floors to bring the building up to modern standards, meet Americans with Disabilities Act (ADA) requirements, and complete needed maintenance and repair. The building will be transformed into a student hub along with the needed library services.

#### **State Veterans' Home - Solar Panel Project**

The Department of Veterans' Affairs will utilize solar panels at the State Veterans' Home in Hot Springs. Studies have shown that after ten years, the amount of savings in utility costs will pay for the solar panels. The Department has applied for federal funding up to 65% of the total cost of the solar panels.

# Dining Hall/Multi-purpose Room - Yankton Community Work Center

The Yankton Community Work Center is a minimum-security facility under the direction of the Mike Durfee State Prison. This project would allow for the expansion of a dining area and multi-purpose room for the existing inmates.

# **Pugsley Center – South Dakota State University**

This project includes the opportunity to maximize the use of the existing Pugsley Center space, upgrade the building's performance, and enhance the opportunities for academic use.

# E.Y. Berry Library Renovation – Black Hills State University

The E.Y. Berry Library and Learning Center is a major resource center for students and faculty for on-campus and distance learning. The building was constructed in 1972 with little or no upgrades since that time. The facility is filled and used to capacity. The renovation project will include the finishing of shell space, provide a new entrance, major technology improvements, design upgrades as well as an infrastructure upgrade. Updating these components will bring the project into compliance with the Black Hills State University campus master plan.

# Berg Agricultural Hall - South Dakota State University

The first and second floors of Berg Agricultural Hall will be renovated to provide updated teach and research laboratories as well as office space. This work will include complete mechanical, fire protection, and electrical upgrades in all affected areas.

# **Department of Transportation Maintenance Shops**

The Department of Transportation (DOT) has plans in the next five years to update, construct, or replace maintenance shops throughout the state. Maintenance shops being considered would increase capacity, replace outdated facilities, and provide new facilities, all while complying with Americans with Disabilities Act (ADA) standards. The new facilities being considered would allow for DOT employees to house vehicles, equipment, and other necessary items and would also help lengthen the lifespan of these items, which may decrease future expenditures.

# **Department of Transportation Facilities**

Additional space is needed statewide within the Department of Transportation. Over the next five years, plans for expanded buildings would provide adequate space for office space, lab space, salt storage, cold storage, seasonal equipment, and heated truck storage.
